Summary of Qualifications:

- Thorough understanding and experience of Software Engineering and Information Technology
- Sound judgment, problem solving, and decision making skills to work efficiently.
- Highly technical and meticulous, possesses careful attention to detail.
- Familiar with: C, C#, Python, Rust

Education:

- Graduated **Hermiston High School** in 2024 with a Computer Science Program of Study.
- Hermiston High School, Hermiston, Oregon

Skills and Abilities:

- C, C#, Python, Rust, Git, experience with Graphics Programming and Rendering, experience in technology-oriented environments.

Experience/Projects:

- **Untitled Text-Based Game**, personal project, 2024
Created a prototype text-based game engine from scratch in C, with the ability to read a .txt file to automatically generate game objects to allow for smooth and easy development in my senior year of high school.

Extracurricular Activities:

- Attended **WSU Tri-Cities Maker's Club** in my freshman year. Displayed leadership abilities by pitching project ideas and discussing team management strategies to build groups for those projects.

Honors/Awards:

- Achieved third place with my team in the George Fox University Coding Competition in my senior year of high school for division III, scoring the highest out of my school overall.

Other Experience:

- **Summer IT Internship**, Hermiston School District, 2024
- **Radio Technician**, KOHU, 2024
